Call for Presentations
Leadership Workshops

The AIS Student Chapter Leadership Conference of 2018, hosted this year by The University of Texas at Dallas, has 45-minute slots available for Industry-Faculty led workshops or panel discussions. Submissions will be accepted through March 15, 2018. Please review the following guidelines before submitting your proposed request to review.

Presentation Topics
Suggested presentations topics include, but are not limited to, those listed below:
- Leadership in the Workplace
- Communication in the Workplace
- Importance of Community Engagement
- Process Improvement: Personal Productivity
- Industry-Technology Trends
- IT Skill Development
- Job Outlook

Submission Guidelines
To Submit
- Title the subject line of the email as “Request for Review – Leadership Submission”
- In the body of the email, include participant names, emails, workshop topic, and industry-University name
- Attached to the email should be an abstract of the workshop or panel.
- Send all submissions to CONFERENCE@UTDALLASAIS.ORG
- Submission deadline: 03/15/2018

Quality over Quantity
- Presentation must last at least 35 minutes
- Please review your presentation before submission

Submission Confirmation
- After submission, a confirmation email will be sent to the presenter. Check your spam inbox if this email is not received within 7 days

Suggested Presentation Information
- Presentation Title
- Facilitators/Collaborators
- Company/Division/University name
- What problems/challenges were resolved?
- Solution?
- What results/benefits came of this?

Some Helpful Tips
- Include real world examples
- Show quantifiable business results (financial impact)
- Showcase innovation in your solutions
- Explain the value your presentation will bring to this year’s conference

Reasons to Present
- Bridge the gap between educational teachings and industry expectations
- Enlighten attendees on where the industry is headed
- Give advice to attendees based on your own personal experience
- Discuss/develop your topic with a technically advanced audience
- Professional networking connections or future collaboration opportunities
